OBJECTIVES

- To cover a broad spectrum of surgical procedures in robotic hepatic surgery
- To provide indications for robot-assisted surgical treatments and discuss operative demonstrations
- To gain knowledge of the robotic platform prerequisites and specificities required to safely use and operate the robotic surgical platform
- To define the role of robotics, its strengths and weaknesses in current hepatic surgery practice
- To provides hands-on sessions to improve skills in robotic surgery through practice on live tissue under expert tutorial

EDUCATIONAL METHODS

- Interactive theoretical sessions between faculty and course participants
- Pre-recorded operative demonstrations
- Hands-on session in liver surgery training on porcine or caprine model under expert tutorial
