

The 15th IACCS Conference on Cancer Screening

December 5-7, 2024, in Goyang, South Korea

您好，

謹代表亞洲癌症暨慢性病篩檢國際會議 (International Asian Cancer and Chronic Disease Screening Network, IACCS) 主席陳秀熙教授，誠摯地邀請您參加於 2024 年 12 月 5 日至 7 日在韓國高陽市舉行的第 15 屆 IACCS 國際會議。本次會議主題為「Smart Quality Control in Precision Cancer Screening」。

此次會議由韓國國家癌症中心(KNCC) Yeol Kim 教授及彰化基督教醫院(CCH)陳穆寬院長共同主辦，並與美國癌症協會(ACS) Robert Smith 教授合作。除了 12 月 6 日的肺癌篩檢、乳癌篩檢、口腔癌篩檢和子宮頸癌篩檢主題討論外，韓國 Hyun-Soo Kim 教授、台灣邱瀚模教授與日本 Takahisa Matsuda 教授將於 7 日共同主持腸胃學相關的癌症篩檢專題。此外，韓國健康篩檢學會(KAHS)的 Won-Chul Lee 教授將代表該學會，共同推動大規模族群癌症及慢性病篩檢的品質管制。

在 12 月 5 日會前會議中，IACCS 將與韓國國家癌症中心 (KNCC)、彰化基督教醫院 (CCH) 及美國癌症協會 (ACS) 合作，舉辦關於癌症及慢性病篩檢機器學習課程。

即日起至 9 月 30 日報名，可享早鳥優惠價([點我報名 https://www.iaccs.asia/registration-fee-ntd](https://www.iaccs.asia/registration-fee-ntd))。彰化基督教醫療財團法人體系員工及台灣篩檢學會會員([立即加入會員 https://reurl.cc/1b2LIY](https://reurl.cc/1b2LIY))可享學生優惠價。我們亦誠摯邀請您提交摘要參與會議 ([摘要提交 https://www.iaccs.asia/call-for-abstract](https://www.iaccs.asia/call-for-abstract))，期待您的熱情參與。

祝您平安健康，

Take a glance at program

Organized Precision and Smart Lung Cancer Screening

- Precision Lung Cancer Screening with Smart Quality Assurance
- Population-based LC Screening Quality Control using AI and Cloud System in Korea
- Smart and Risk-based LDCT Service Screening in Taiwan

State-of-the-Art Lung Cancer Screening Models

- Cancer Screening at a Crossroad: Organized Screening, Personalization and AI
- AI-driven Imaging and Biomarker Screening for Lung Cancer
- Lung Cancer Screening in Asian Pacific Regions with Metaverse Health Care Perspective

Cervical Cancer Screening

- Screening in HPV Vaccinated Cohorts
- New Molecular Markers and Implementation of Risk-based Cervical Cancer Screening
- HPV Associated with Oral Cancer and Cervical Cancer Prevention in India

Breast Cancer Screening Model Beyond EBM

- AI-enabled Smart Quality Control for Breast Cancer Screening
- AI-enabled Breast Cancer Surgery in the Era of Population-based Screening
- AI-enabled Management Model for Breast Cancer Screening
- Global Breast Cancer Screening Model with Metaverse Perspective

Oral Cancer Screening Model

- Smart Health Care for OPMD and Oral Cancer
- Oral Cancer Burden in Asia
- Smart QA for Global Oral Cancer Prevention

Take a glance at program

Colorectal Cancer Screening

- Quality Control Strategies in Population-based Colon Cancer Screening
- Temporal Trend of T1 Colorectal Cancer in Taiwan 2004-2021: Organized Screening Program Perspectives
- Endoscopic Treatment of T1 CRC and its Clinical Outcomes
- AI Empowered Guideline for Colorectal Cancer Screening
- Application of AI for Quality Assurance and Audit in CRC Screening Program
- International Network of Big-data Analysis in Colorectal Cancer Screening
- Application of Machine Learning for Cost-effectiveness analysis of Colorectal Cancer Screening

Lunch Symposium

- Primary and Secondary Prevention for Gastric Cancer in Taiwan
- Ensuring High-quality of Colonoscopy: No Magic but Only Basic

Digestive Cancer Screening Session

- Optimizing Liver Cancer Screening: Effective Strategies and Practices
- Precision Surveillance for HCC in Chronic HBV Carrier
- Screening for GC Coupled with H pylori Eradication
- AI-assisted Digestive Cancer Screening

Emerging Modalities and Informatics Related to Cancer Screening

- AI-driven Precision Screening: Prostate Cancer as an Example
- Community-based Multiple Disease Screening Program in Taiwan
- Risk Prediction and Precision Cancer Screening Strategy Using National Cancer Big Data
- Individualized Cancer Prevention and Screening Combination with Chronic Disease Management in Clinic
- Quality control for overdiagnosis and Choosing wisely recommendations for cancer screening
